

Capabilities

CAPABILITIES OF THE PI AND THE RESEARCH TEAM

PRIOR CONSIDERATIONS

- » Before starting to write your proposal, **carefully read the call's rules for participation**. Relevant information on how to address this proposal is exclusively addressed in the rules. Proposals not complying with the rules for participation of this call **will be automatically rejected with no further right to appeal**.
- » Strictly comply with the restrictions on format, structure and content specified above.
- » The structure of this template must be followed when preparing your full proposal. It has been designed to ensure that the most important aspects of your project are presented in a way that will enable the experts to make an effective assessment against the evaluation criteria.
- » Please be aware that proposals will be evaluated as they were submitted, rather than on their potential if certain changes were to be made. This means that only proposals that successfully address all the required aspects will have a chance of being funded. There will be no possibility for significant changes to content and budget during grant preparation.

PAGE LIMIT: 1 PAGE

If you upload a proposal longer than the specified limit, your proposal will be rejected. The proposal is a **self-contained document**. Experts will be instructed to ignore hyperlinks to information that is specifically designed to expand the proposal and circumvent the page limit. The document can include figures, images, references and bibliography **within the 1 page limit**. Do not add annexes or any other content exceeding the limit.

FORMAT NOTE:

Please respect the following formatting constraints:

Font Calibri, size 11, page size A4, 2.5 cm. margins (left, right, top and bottom), 1.5 line spacing, and justified text. Title fonts can be larger. Hyphenation allowed. Typographic tools such as bold, italics, indentations or underlines are also permitted.

Do not change the typography, margins, spacing or any other format requirement. Footnotes (if any) must comply with the same format requirements than the core text. **Proposals not complying with formatting will be automatically rejected.**

CONTENT:

Capabilities:

Determine and describe which expertise, merits, qualifications, certifications, or credentials best guarantee your capabilities (and those of your research team, if applicable) to carry out the project.
